Work Experience

Postdoc Researcher - Ghent University, Belgium   *2024 – 2026*

Head of the YourMorals project. To measure moral conflict in social context, I ran experimental studies using behavioural and EEG measures, conducted data analysis, & supervised 3 international students and 1 research assistant. Funding secured: Marie Skłodowska-Curie actions, European Commission · 175 920 €

Postdoc Researcher - University Lyon Lumière II, France   *2022 – 2023*

As part of the MORALEM project, focusing on emotions and moral transgressions, I conducted a series of online experiments using Python scripts, html and Prolific.

Neuropsychologist - Freelance, Marseille, France   *2016 – 2017*

I developed and animated sessions of cognitive rehabilitation and memory training for seniors (60+ yo), by using neuropsychological tools.

Personal Tutoring in Statistics - Freelance, Marseille, France   *2015 – 2021*

I taught undergraduate students inferential statistics and multivariate analysis.

Education

Ph.D. in Psychology | Aix-Marseille University, France   *2011 – 2014*
Thesis title: *Cognitive and psychosocial mechanisms involved in Jigsaw cooperative learning: experimental studies in educational settings*

Master in Neuropsychology & Neuroscience | Aix-Marseille University, France   *2014 – 2016*

Bachelor in Psychology | Aix-Marseille University, France   *2011 – 2014*

Extra

Conference organizer - Ghent University, Belgium   *Oct. 2025*

I developed and co-organized the first edition of the *Social and Moral Brain Seminar*.
Funding secured: FWO and UGent Research Council · 11.570 €
